

EDUCATION FOR AFRICAN ANIMALS WELFARE (EAAW)

Happy new year 2025 to all animal lovers. You have been an integral part of our journey in advocating for animal welfare since the beginning of 2024. Today, we at Education for African Animal Welfare (EAAW) are proud to share the progress and achievements of our initiatives over the past year.

Welcome to our Annual Summary for 2024. This summary provides a detailed look into our projects, achievements, and challenges over the past year. We are proud of the strides we've made in advancing animal welfare and look forward to making even greater progress in 2025. Your feedback and support are crucial as we continue our mission to improve the lives of animals across Africa.

## **ABOUT US AND OUR PROJECT**

Education for African Animal Welfare (EAAW) is a dedicated non-governmental organization based in Dar es Salaam, Tanzania. Our mission is to promote animal welfare, care, and protection across Africa through awareness creation, improved practices, and advocacy for plant-based diets.

2024 we championed the Cage-Free Movement, protected thousands of dogs through the Dog Vaccination Project, and promoted healthier, plant-based diets with the Your Health, My Life initiative. Explore each project below to see how we're transforming animal welfare and community health across Tanzania.

In 2024, Education for African Animal Welfare (EAAW) made significant progress in promoting humane poultry farming through the Cage-Free Movement. We educated farmers and the public about the benefits of cage-free systems, helping to transition numerous poultry farms to more compassionate practices. This shift has resulted in healthier and happier chickens, as well as more ethically produced poultry products.

In 2024, Education for African Animal Welfare (EAAW) focused on improving pet health through our Dog and Cats Project. We conducted numerous vaccination drives across Tanzania, protecting thousands of dogs and cats from rabies and other diseases. Our efforts not only safeguarded animal health but also enhanced community safety by reducing the risk of disease transmission. This project underscores our commitment to animal welfare and public health.

## 3, DIETARY CHANGE PROJECT

In 2024, Education for African Animal Welfare (EAAW) focused on promoting plant-based diets through our "Your Health, My Life" initiative. By conducting community workshops, cooking demonstrations, and educational campaigns, we reached thousands of people, encouraging healthier eating habits that benefit both individuals and the environment. This project underscores our commitment to fostering a sustainable and compassionate lifestyle across Tanzania.

## 4, SEEDS FOR THE FUTURE PROJECT

In the "Seeds for the Future" initiative, women are offered a chance to gain practical knowledge by creating a basic Eco-friendly garden while circulating water from kitchen and other uses. The produce from this garden is Eco-friendly and safe for consumption. Given the high market demand for organic products, this project not only boosts women's earnings but also guarantees food security for their children and remains will be used to feed their animals.

As we step into 2025, our determination to exceed the accomplishments of 2024 is stronger than ever. Together, we can elevate animal welfare to the forefront of public awareness. Join us in our mission to make a significant impact.
